

CURRICULUM VITAE

DATE: Jun 23, 2026

NAME: Thomas A. Nahass, MD, MS, FAMIA

PRESENT TITLE: Vice President Health Informatics - Central Region | Assistant Professor Department of Medicine Division of Pulmonary Critical Care

EDUCATION

June 2022 | MS, Health and Clinical Informatics, Oregon Health & Science University, Portland, OR

May 2017 | Doctor of Medicine (MD), Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ

2010 – 2011 | Post-Baccalaureate for Medicine, Harvard Extension School, Cambridge, MA

May 2010 | BA, Music Composition, Wake Forest University, Winston-Salem, NC

POSTGRADUATE TRAINING

July 2020 – June 2022 | Fellow, Critical Care Medicine, Memorial Sloan Kettering Cancer Center, New York, NY

July 2017 – June 2020 | Resident & Intern, Internal Medicine, Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ

CERTIFICATION & LICENSURE

Board Certifications

Jan 2023 – 2032 | Clinical Informatics, American Board of Preventive Medicine

Jan 2023 – 2032 | Critical Care Medicine, American Board of Internal Medicine

Oct 2020 – 2030 | Internal Medicine, American Board of Internal Medicine

Licensure

New Jersey | Medical License (Active)

New York | Medical License (Inactive)

EMPLOYMENT

July 2023 – Present | Vice President of Health Informatics (Central Region), RWJBarnabas Health, West Orange, NJ

July 2022 – Present | Assistant Professor of Critical Care Medicine, Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ

July 2022 – June 2023 | Physician Champion, RWJBarnabas Health, New Brunswick, NJ

July 2020 – June 2022 | Fellow Physician (Critical Care), Memorial Sloan Kettering Cancer Center, New York, NY

July 2017 – June 2020 | Resident Physician (Internal Medicine), Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ

Nov 2014 – 2017 | President and Co-Founder, Copernicus Health, Inc., New Brunswick, NJ

Jan 2015 – July 2017 | Freelance Data Science Developer, Upwork.com, New Brunswick, NJ

2012 – 2013 | Clinical Informatics Coordinator, ID Care, Hillsborough, NJ

Grant Funded Projects

2026 | Co-Principal Investigator, "A Precision Medicine-Based Deep Phenotyping of Heart Failure Leveraging Artificial Intelligence Tools" (PI: P. Kachroo). Funded by Rutgers BMIHAI.

2026 | Co-Mentor, "Advancing ICU Care with Real-Time, AI/ML-Driven, Patient-Specific Digital Twins (AID-TWIN)" (Lead: J. Sunderram). Funded by Rutgers BMIHAI PAIR Fellowship.

Other Key Projects and Initiatives

2025 | AutoCDI Implementation. Developed multi-phased documentation strategy; increased CMI by 0.4, reduced Mortality Index (1.2 to 0.7), and captured ~\$50M incremental revenue.

2025 | HRRP Reduction Project. Developed multi-phased approach for rule based system to identify, flag, and notify various team members of pending readmission to target care coordination within ED and at discharge for admissions for high risk readmissions utilizing Epic Risk of Readmission Cognitive Computing Model

2025 | IMRM Critical Care Mortality Reduction Project. Developed multifaceted approach to integrate Epic's ICU Risk of Readmission or Mortality score into the workflow for Intensivists, who may be transferring patients at high risk of returning.

2025 | Physician Builder Program Leadership. Established and led informatics program comprising 25+ Physician Builders and 45 SmartUsers.

2024 – 2025 | Sepsis Mortality Initiative. Targeted coding and clinical interventions to improve source control/bundle compliance, achieving >3% absolute mortality reduction across 12 hospitals.

2024 – 2025 | Physician Builder Enhancements. Reduced CDI no-response rates, added discharge clarification notes, and increased DNR documentation accuracy by 10%.

2024 | Respiratory Virus Dashboard. Built real-time MSSQL/Tableau tool detecting upticks 2 weeks prior to CDC data, enabling timely masking mandates.

2024 | IV Fluid Shortage Management. Innovated system-wide dashboard achieving 44% fluid reduction while shortening LOS; subject of national publication.

2024 | Deterioration Index Rollout. Directed 12-hospital implementation reducing mortality (18–26%); recognized at Epic UGM, NEJM AI publication pending.

MEMBERSHIPS, OFFICES AND COMMITTEE ASSIGNMENTS IN PROFESSIONAL SOCIETIES:

2018 – Present | Fellow, American Medical Informatics Association (AMIA)

2026 – Present | Member, American College of Physicians

2022 – Present | Member, American Thoracic Society

2022 – Present | Member, American Medical Association

2020 – Present | Member, Society of Critical Care Medicine

2020 – Present | Member, American College of Chest Physicians

HONORS AND AWARDS

2025 | Rising Stars: Healthcare Leaders Under 40, Becker’s Hospital Review

2015 | First Place (\$50,000), Nicholson Foundation Healthcare Delivery Innovation Startup Competition

2014 | First Place (\$5,000), Nicholson Foundation Healthcare Delivery Innovation Idea-thon

2006 | Eagle Scout, Boy Scouts of America

SERVICE ON HOSPITAL COMMITTEES

Executive & Chair Roles

2026 – Present | Member, AI Center of Excellence Executive Council, Rutgers Health & RWJBarnabas Health

2026 – Present | Member, Learning Health System Executive Steering Committee, Rutgers Health & RWJBarnabas Health

2026 – Present | Member, CDB Governance Council, RWJBarnabas Health

2025 - Present | Chair, Sepsis Mortality Steering Committee, RWJBarnabas Health

Committee Memberships

2025 – Present | Voting Member, Clinical Data Governance Committee

2023 – Present | Member, System Mortality Committee, RWJBarnabas Health

2023 – Present | Member, Oncology Mortality Review Committee, RWJBarnabas Health

2022 – Present | Member, Physician Advisor Council, Robert Wood Johnson University Hospital

2018 – 2020 | Member, Graduate Medical Education Committee (Resident Council), Rutgers RWJMS

2013 – 2020 | Member, Physician IT Committee, RWJBarnabas Health

RESEARCH INTERESTS

Early warning systems, critical care digital twins, LLMs in clinical medicine, agentic AI, RAG
